

Hi My Name is Michael Williams. Today SBC has made it impossible for any of their customers to call me. SBC says its because im with another carrier. This is not true. SBC change the area code and I am unable to receive any calls from their customers. SBC blames the other carries but I know the truth. I was told that if I was with them that I would not be having a problem! I also will be given no help or consideration because im with another provider. This situation is outrageous. SBC is using this situation of changing the area codes to "slip up" and punish the customers of other carriers. Please help.
